Experiences & Skills

Word Press

Technical Proficiency & Plugin Integration

Demonstrated expertise in WordPress, showcasing a deep understanding of its functionalities, themes, and plugins. Proficient in customizing WordPress themes and templates to meet specific design and functionality requirements. Extensive experience in integrating and configuring WordPress plugins to enhance site functionality and meet specific project requirements. Proficient in troubleshooting and debugging issues related to plugin conflicts and compatibility.

Web Developer

Front-End

I work to create the look and feel for websites. They're responsible for coding web pages or entire sites, meeting with clients to review template designs and refine their final product, as well as running tests that preview how these changes will affect layout/design features on their client's web-page before it's released.

HTML, CSS & Java-script

HTML Proficiency & CSS Styling

HTML expert, crafting structured, semantic markup. Proficient in clean, efficient HTML code, adhering to the latest standards. Skilled in CSS, implementing stylesheets for visually appealing, responsive web pages. JavaScript proficiency in dynamic web development, enhancing user interactivity and responsiveness with efficient front-end scripting.

Machine Learning

Machine Learning Expertise

Demonstrated proficiency in machine learning algorithms and techniques, with a solid understanding of both supervised and unsupervised learning approaches. Applied machine learning to solve real-world problems, showcasing the ability to translate business needs into data-driven solutions.

Natural Language Processing

NLP Expertise & Text Analysis

Proven ability in natural language processing, with an emphasis on deciphering and drawing conclusions from unstructured textual input. Used NLP approaches to tackle challenging issues and demonstrate the capacity to handle a variety of text datasets.
